Care and Cleaning for Your New Bath Enclosure

Thank you for your purchase from Peterson. Our products are designed to provide you with years of enjoyment if they are maintained with some simple cleaning instructions.

The easiest and best method of cleaning your unit is by rinsing it with clean water and drying with a soft cloth. If further cleaning is necessary, a non-abrasive cleanser such as Comet Bathroom Cleaner may be used.

Do not use scouring pads or sharp instruments. Caustic cleansers and/or abrasive cleaners should never be used to clean your enclosure as they can permanently damage the finish.
